

Mt. Bachelor & Bend, Oregon

February 24—March 2, 2024

\$2225.00 pp

Mt. Bachelor is big. In fact, measured by skiable terrain, it's one of the six biggest ski areas in the United States. But we don't get the crowds that most of the other biggies do. So there's a spacious feel to skiing and riding Mt. Bachelor you don't find at most big mountains.

Going up? There are seven high-speed lifts. Going down? There's 3365' vertical, and huge snowfall – see the stats section for more.

Mt. Bachelor has quite a backstory – both in its natural history, and its history as a ski area.

Mt. Bachelor is a true destination despite the fact that – uniquely among America's major ski areas – it has no slopeside, lodging, no fancy base villages, no condo developments or any other sign of the high-

priced foofaraw so common at major ski areas nowadays. We don't have it, we probably never will, and we're actually pretty darned proud of that – because we've got something much better.

Mt. Bachelor is the largest ski resort in the Cascade Range, offering 3,683 acres of lift accessible terrain. The mountain features 10 lifts, seven of which are Express Quads, plus two tubing lifts and two beginner carpets and an average annual snowfall of 462 inches. Mt. Bachelor also features 5 terrain parks, a super pipe, 56K of groomed and tracked cross

country trails, snowshoeing, tubing and sled dog rides.

Mt. Bachelor caters to all ability levels. Carrousel, our free beginners lift, offers an easy ride up and gentle slope down, while experts can rip from the summit or cruise the steeper glades off the Northwest Express lift. Terrain park enthusiasts enjoy a variety of options in 5 designated parks and endless natural features across the mountain. Other amenities include the largest specialty retail shop in Oregon, our Nordic facility with 56-kilometers of trails and signature ski school services.
